CSS

## Sub Skill

Transitions and Anim...

## Instruction

1. Open src/styles.css. Begin by adding the transition property to the .box ruleset as shown below.

```
transition: background-color 200ms ease-in, opacity 200ms ease-in;
```

2. Next, define the :hover ruleset for the .box element as shown below.

```
.box:hover {
  background-color: #fddb3a;
  opacity: 1;
}
```

3. That's it. Try hovering the mouse pointer over the images.
