CSS Layout Assignment: Flexbox & Grid (Non-Responsive)

Part 1: Flexbox - Team Section

Task:

Create a "Meet the Team" section with 4 team member cards displayed in a horizontal row using Flexbox.

Requirements:

- Use Flexbox to align 4 cards side by side.

- Each card should have:

  - A square image (150x150px, use any placeholder)

  - Name (e.g., John Doe)

  - Job Title (e.g., Frontend Developer)

  - Short Description (2-3 lines)

Styling:

- Container width: 1000px

- Card width: 220px, height: auto

- Add padding, margin, and border to the cards

- Add a small hover effect (like box-shadow)
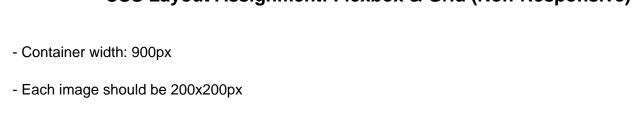

Part 2: Grid - Image Gallery

Task:

Create an image gallery of 8 images using CSS Grid.

Requirements:

- Use a grid layout with 4 columns and 2 rows

CSS Layout Assignment: Flexbox & Grid (Non-Responsive)

- Container width: 900px

- Each image should be 200x200px

- Add a small gap between grid items (10px)

- Use any placeholder image (like https://via.placeholder.com/200)

Styling:

- Center the grid on the page

- Add a border or shadow around each image

Submission

- Create two files:

  - flexbox-team.html

  - grid-gallery.html

- Use internal or external CSS.

- Upload to GitHub and share the link.
